## AMONG THE GREAT DISCOVERIES.

THE ANNOUNCEMENT OF THE DISCOVERY OF PURE NATIVE SULPHUR OF GREAT MEDICAL VAL-UE IN ITALY.

Is Followed almost Immediately by the Discovery of the Same Identical Thing in Pennsylvania,

From which Source Glenn's Sulphur Soap has been supplied for several Years with its Real Curative Property - Sulphur.

There is no country in the world where so many persons are sufferers from Skin Diseases as in the United States. And the reason is, that there is so little agi-phur found in nature here. In Italy, where Skin Diseases are almost unknown, sulphur is so abundant in the soil that it onters largely into, first, regetable, and then, in its turn, into animal matter, thereby keeping the blood pure, and preventing those troublesome, ugly, and sometimes loathsome diseases. It becomes a matter of great importance here, to supply this aulphur to the human system. And after many experi-ments by the ablest men, it is admitted, its local use, as found is GLENN'S SULPHUR SOAP, is the best. See that ".C. N. ## DAILY STAR

Offers special inducements to Advertisers desiring to reach this class of people. It publishes and circulates more papers in Cincinnati and immediate vicinity than any other journal issued in this city. It is taken and read by people at THEIR HOMES; and for all classes of goods, where the Advertiser desires to reach the family, is more valaable, even in proportion to circulation, than a paper that is a favorite only in the counting-room. Its news covers the affairs of every day life, dressed up in such a manner as to be of special interest to the ladies; and its advertisements are therefore brought more conspicuously before them than is the case with any other paper in this city.
